New Location, Expanded Programming & Exciting Topics!

The Midwest Association of Plastic Surgeons meeting is taking a new format this year; we had so many great speakers we had to extend the meeting to a whole weekend! And we did not forget about your families and kids, and we included them in our program. Please bring your colleagues, office staff, and families to a fantastic weekend of learning, activities, and fun at our MAPS meeting in Lake Geneva, WI.

Still considering whether you should come? Here's why you will not want to miss this event:

- **Location, location, location:** The Grand Geneva Resort is one of the most popular resorts in the Midwest, and conveniently located close to O'Hare Airport and is easily accessible if you are driving from most areas of the Midwest. What used to be the Lake Geneva Playboy Club has been converted into a premier family resort, with golf, water park, horseback riding, tennis, spa, and much more. Did we mention a great conference rate and free parking?
- Learn the latest techniques about breast reconstruction, including **prepectoral reconstruction**, from **Albert Losken MD, John Kim MD, Mark Clemens MD, and Ahmed Afifi MD**.
- For the first time in the history of MAPS, the immediate president of ASPS will be at the meeting. Learn from **Renalto Saltz MD** the finesse and artistry involved in an aesthetic practice.
- No more flat unnatural tummy tucks. Take your **abdominoplasty** results to the next level after listening to **Eric Swanson MD, Jeffrey Gusenof MD, and Hossam Tahseen MD**.
- **John Kim MD** and **Mark Clemens MD** will update us on the science, controversy and concerns about breast implants.
- **Pedal Fat Grafting**. It is simple easy fast and can help many patients. **Jeffrey Gusenof MD** will convince you.
- We don't just preach wellness, we practice wellness. Nicole Sommer and physical therapists will lead an early morning "Yoga for Surgeons" session specifically to help you stand better in the OR and protect your C spine.
- **Chris Surek MD**, author of the textbook "Facial Volumization," and **Mohammed Alghoul MD** will teach us the anatomy required for effective and safe filler injections in the face.
- Liposuction will never be the same after this meeting. Learn two perspectives from **Hossam Tahseen MD** and **Douglas Steinbrech MD** who took their results to the next level, and have taught **High Definition Liposuction** in renowned courses all over the world.
- **Augmentation Mastopexy. Transgender Breast Surgery.** **Eric Swanson MD** and **Katherine Gast MD** will make them easy.
- **Buttock Augmentation** is here to stay. Learn how to do it in different genders and different populations from **Hossam Tahseen MD, Jeffrey Gusenof MD, and Douglas Steinbrech MD**.
- What makes a successful aesthetic practice? **Renalto Saltz MD** and our renowned faculty will teach you their secrets.

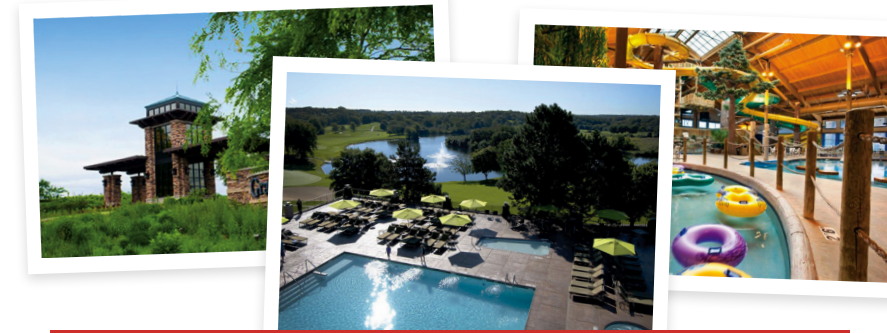

And we planned the weekend with your families and kids in mind. They will join you for a Friday evening reception, Saturday morning early yoga session, long Saturday afternoon break of golf, mountain biking, hiking, and outdoor lunch, a Saturday BBQ dinner with bonfire on the patio. They can also use the 6000-foot water park, tennis courts, basketball courts, swimming pools... you might just decide to extend your stay for a whole week!

Friday May 3, 2019
